

emco entrance mat systems

**Approved Quality**

Designing clean entrances

## High performance with flexibility

emco is a leading global manufacturer, creating entrance mat systems that reduce the dirt and moisture entering a building – to help protect both the internal finishes and its users.

| ● Italy              |                  |

### Production facilities:

## Top quality and reputable

Quality workmanship that is tested to high standards. Our clean-off systems turn your entrance area into an individually designed foyer.

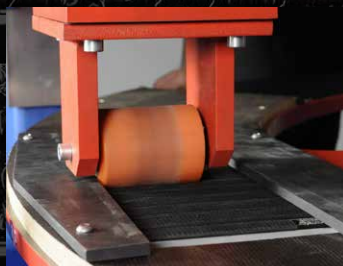

Our satisfied customers include global corporations and prestigious companies. Names that speak for themselves – and for us:

Aldi · Ikea · Lidl · H&M · Radisson · Hilton · Hyatt · Barclays Bank  
· Heathrow Airport, London · ICC, Hong Kong · Dubai Festival  
City · City's Shopping Centre, Istanbul · Hysan Place, Hong  
Kong · Free University of Amsterdam · Liege Central Station,  
Belgium · Mercedes Benz Museum Stuttgart · Barcelona Exhi-  
bition Centre · GUM Shopping Mall, Moscow · Horwl & Casino  
Grand Lisboa, Macau · Shopping Centre 10 Mile Junction,  
Singapore · Emporia Shoppingcenter Malmö, Sweden

## Resilient and tough

The high quality materials used in the profiles, inserts and mat wells are both weather resistant and highly resilient. Our entrance mats are monitored and tested regularly and we continuously look for improvement.

## Environmentally friendly and economical

The reduced contamination internally reduces cleaning time and effort, while also cutting the consumption of water and chemical cleaners.

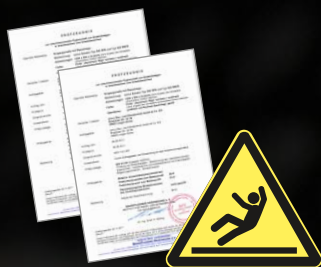

emco is the first manufacturer to produce environmentally friendly, resource-saving entrance mats for the contract market.

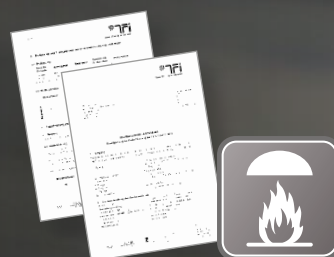

## Safe and hygienic

The slip resistant characteristics of our entrance mats reduce the risk of accidents, while the powerful dirt reduction properties improve hygiene.

Many of our products are available in flame-retardant versions, manufactured according to EU standards.

**emco**

## Durable and sustainable

In addition to the long service life of all components, the service life of our mats is further extended by the simple replacement of the ribbed carpet – with positive effects for both your investment and the environment.

## Service-oriented and supportive

Our service begins with qualified on-site advice. We offer help with calculating dimensions and provide a estimating and installation service to make adapting and installing the mats easier – and if necessary, can easily replace individual ribbed carpet inserts at any time.
